

Ocean
Discovery Institute

Carlos Nava

What is ODI

The Ocean Discovery Institute delivers rigorous educational, scientific research, and environmental stewardship experiences that build curiosity, science understanding and skills, and leadership in underserved youth in underprivileged environments.

What I did

Prepared Projects

Help with organization of files (Software/ Hardware)

Help wherever needed

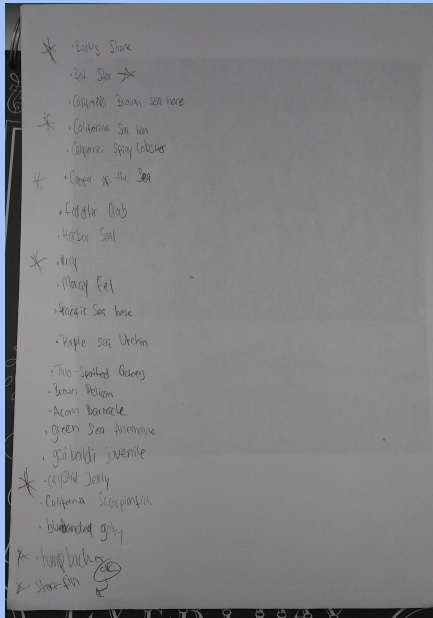

MY PROJECT

For my project, I've been working on is a art piece that's main focus point is ocean life. I was inspired to make this because of the many art pieces that are in ODI. While walking around a admiring them for so long (me being the critic I am), I thought that I could make a art piece that summarizes the work my co-workers do, while still being pleasing to the eye.

THE PROCESS

GETTING MY IDEAS DOWN

DRAFT #1

FINAL DRAFT

Not yet
Complete

SKILLS I'VE LEARNED

- The Importance of Communication
- How to use older Microsoft programs
- Sharpening my skills in Group Work
- Expressing my Opinions / Thoughts in a professional Manner
- Improvement in Time Management
- Improvement in Organizational Skills

CHALLENGES

- Restlessness
- Using New Programs
 - Commute

WHAT I'VE LEARNED ABOUT MYSELF

- I can be a quick learner
- I'm too restless to work at a desk

How has Internship Influenced my Future?

- It has showed me that my future career should not be behind a desk

What I'll bring Back to School With Me?

- During my time with the Ocean Discovery Institute, I've seen my organizational skills and time management skills drastically improve.
- I plan to take these skills back to school and use them in my classes to work efficiently while work on class work or project work.
